The HON Company Receives Indoor Advantage™ Gold

Muscatine, IA-based The HON Company's Accomplish™ line of classroom furniture is the first school product to be certified as Indoor Advantage™ Gold for indoor air quality.

"We are excited to offer the first line of school furniture that has been awarded the Indoor Advantage Gold certification for air-quality safety. This certification represents the new standard for air-quality testing. Air quality is a major concern among school administrators," says Jim Kane, vice president of business development for The HON Company, Muscatine, IA.

Indoor Advantage certification is administered by SCS (Scientific Certification Systems) of Emeryville, CA. The certification relies on data collected through small chamber testing, which allows manufacturers to examine a product's individual components.
