

Shop SCS for certification, safety and sustainability services.

REDUCE Food Safety Risks

With the most highly trained professionals in the business, SCS can help your business reduce food safety risks by providing third-party auditing, testing, education and certification services. SCS is accredited to conduct Global Food Safety Initiative (GFSI) audits - such as SQF 1000, SQF 2000, BRC, GlobalGAP, and Tesco Nurture. We also offer HACCP, GAP and GMP audits.

PROMOTE Organic & Sustainability

To support your sustainability objectives and those of your customers, SCS offers a full suite of certification programs including:

- USDA Organic
- Marine Stewardship Council sustainable seafood
- Fair Labor Practices Certification
- VeriFlora® Sustainably Grown flowers and plants

UPGRADE Your Produce Department

To provide your customers “quality, choice and confidence,” SCS offers cost-effective programs that help guarantee more flavorful, more nutritious and less toxic produce:

- Flavor Rich™ certification and flavor management services
- Pesticide Residue Free (NutriClean®) produce certification and testing

GREEN Your Brands & Products

Consumer demand for greener, more sustainable brands and products continues to grow. And leading companies are moving to meet that demand. As a respected and experienced developer of eco-label programs, SCS helps retailers “green” their corporate and private label brands through product counseling, screening, testing and certification.

IMPLEMENT Corporate Responsibility Policies

SCS offers cost-effective, strategic sustainability management services to help guide overall social and environmental corporate policy development in the areas of:

- Climate change
- Supply chain indexing
- Reduced packaging
- Animal welfare
- Sustainability initiatives

For more than 25 years, SCS has been helping retailers, growers and distributors enhance brand, product and corporate loyalty through scientifically rigorous environmental, health and safety services.
